

Questions to Ask Your Heart Team

Transcatheter Aortic Valve Replacement (TAVR)

As you and your Heart Team begin to discuss treatment options for your severe aortic stenosis, you may want to have a more in-depth talk about TAVR. Use this guide to help facilitate your conversation.

What are the benefits and risks of TAVR versus another procedure, such as open heart surgery?

What are the potential differences in the recovery experience between TAVR and another procedure, such as open heart surgery?

What is the specific valve name you are suggesting for me?

Are you recommending a balloon-expandable valve or a self-expanding valve? What are the differences and why is it important to me?

What is the survival rate with this valve versus other available valves?

Transcatheter Aortic Valve Replacement (TAVR)

What is the disabling stroke rate with this valve versus other available valves?

How many people were in the clinical study for this valve versus other available valves?

How long has this valve been studied versus other available valves?
